

NAPA COUNTY GRAND JURY REPORT 1975

NAPA COUNTY MOSQUITO ABATEMENT DISTRICT

The District has been in continuous operation since its formation in 1925. Primary function of the District is to maintain an environment, which is free of nuisance mosquitoes as well as those, capable of transmitting harmful human disease. The area served includes the entire County of Napa.

District facilities are located on land owned by the Napa Sanitation District under a 50-year lease commencing in 1954. Expenditures are authorized and approved by the five-member Board of Trustees. The District has a manager and six employees. All employees have been certified by the State of California for the safe use and handling of insecticides.

Based on our discussion with Mr. Risley, the manager, review of the audit report for FY ended June 30, 1974, and the budget for FY ended June 30, 1975, management is commended for the efficient operation of the District.
