Section 1: Identification

Product identifier

Product Name: Zoecon Altosid Pellets

Synonyms: 100503099; 100526053; 37720B; 37730D; 38540; EPA Reg. No.: 2724-448; Prolink Pellets Mosquito Growth Regulator; Strike Pellets; Zoecon Altosid Pellets WSP; Zoecon Altosid WSP; Zoecon RF-330 Altosid Mosquito Growth Regulator

Product Description: Black rod-shaped pellets.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use: Insect growth regulator

Restrictions on use: Keep out of the reach of children. Avoid contact with eyes, skin or clothing. Avoid breathing dust.

Details of the supplier of the safety data sheet

Manufacturer: Wellmark International
1501 E. Woodfield Road, Suite 200 West
Schaumburg, IL 60173
United States
www.centralmosquitocontrol.com

Emergency telephone number

Manufacturer: 1-800-248-7763
Manufacturer: 1-800-424-9300 - CHEMTREC
Manufacturer: 1-703-527-3887 - CHEMTREC - Outside North America - Collect Calls Accepted

Section 2: Hazard Identification

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012
• Eye Mild Irritation 2B
• Combustible Dust
• Carcinogenicity 1A

Label elements

OSHA HCS 2012

DANGER
Hazard statements• May form combustible dust concentrations in air.
  Causes eye irritation
  May cause cancer.

Precautionary statements
  Prevention • Wash thoroughly after handling.
  Obtain special instructions before use.
  Do not handle until all safety precautions have been read and understood.
  Wear protective gloves/protective clothing/eye protection/face protection.
  Response• IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses,
  if present and easy to do. Continue rinsing.
  If eye irritation persists: Get medical advice/attention.
  IF exposed or concerned: Get medical advice/attention.

Storage/Disposal• Store locked up.
  Dispose of content and/or container in accordance with local, regional, national, and/or
  international regulations.

Supplemental information• The finished product is not considered carcinogenic because of the product’s physical
  form. The Hazard Statement “May Cause Cancer” is presented because a component
  of this product contains a naturally occurring trace amount of crystalline silica (quartz)
  which is classified as carcinogenic to humans if inhaled. Respiratory exposure to silica
  dust from the finished product is not expected to occur under normal conditions of use
  due to the manner in which the constituents are bound or packaged in water soluble
  pouches. The crystalline silica in the finished product is unlikely to pose personal
  exposure via inhalation.

Other hazards
  Standard), this product is considered hazardous.

| Inhalation • IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a
  position comfortable for breathing. Call a physician if symptoms occur. |
| Skin • IF ON SKIN: Wash with plenty of soap and water. If irritation or rash occurs, get |
Eye
   • IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison control center or doctor for treatment advice.

Ingestion
   • First aid is not expected to be necessary if material is used under ordinary conditions and as recommended.

Most important symptoms and effects, both acute and delayed
   • Causes eye irritation, may cause cancer. Refer to Section 11 - Toxicological Information.

Indication of any immediate medical attention and special treatment needed

Notes to Physician
   • Treat symptomatically and supportively.

---

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media
   • Water fog, fine water spray, carbon dioxide or foam.

Unsuitable Extinguishing Media
   • Avoid heavy hose streams.

Firefighting Procedures
   • Do not allow fire fighting water to escape into waterways or sewers. Combustible dust - use low-pressure medium fog streams to avoid dust clouds.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards
   • Combustible Dust.
   Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Hazardous Combustion Products
   • Carbon monoxide and carbon dioxide.

Advice for firefighters
   • Wear positive pressure self-contained breathing apparatus (SCBA).

---

Section 6 Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions
   • Wear appropriate personal protective equipment, avoid direct contact. Keep all sources of ignition away and avoid creating dusty conditions. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Do not walk through spilled material. Ventilate enclosed areas.

Emergency Procedures
   • ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Contain spill and monitor for excessive dust accumulation. Keep unauthorized personnel away. Ventilate closed spaces before entering.

Environmental precautions
   • Avoid run off to waterways and sewers.

Methods and material for containment and cleaning up

Containment/Clean-up Measures
   • Carefully shovel or sweep up spilled material and place in suitable container. Use clean non-sparking tools to collect absorbed material. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Wear appropriate personal protective equipment, avoid direct contact.

---

Section 7 Handling and Storage
Precautions for safe handling

Handling

- Avoid contact with skin, eyes, and clothing. Wear appropriate personal protective equipment, avoid direct contact. Do not use in areas without adequate ventilation. Take precautionary measures against static charges. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

Conditions for safe storage, including any incompatibilities

Storage

- Store in cool, dry area, inaccessible to children. Store at temperatures not exceeding 90°F. Store away from heat or open flame. Store locked up.

Incompatible Materials or Ignition Sources

- Heat, sparks, open flame. Strong acids, strong bases, and oxidizing agents.

Section 8 Exposure Controls/Personal Protection

Control parameters

Exposure Limits/Guidelines

- It is recommended that dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment.

<table>
<thead>
<tr>
<th>Exposure Limits/Guidelines</th>
<th>ACGIH</th>
<th>NIOSH</th>
<th>OSHA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Silica, crystalline - quartz (14808607)</td>

<td>0.05 mg/m³ TWA (respirable dust)</td>
<td>50 µg/m³ TWA</td>
</tr>
<tr>
<td>Plaster of paris (26499650)</td>
<td>Not established</td>
<td>10 mg/m³ TWA (total dust); 5 mg/m³ TWA (respirable dust)</td>
<td>15 mg/m³ TWA (total dust); 5 mg/m³ TWA (respirable fraction)</td>
</tr>
</tbody>
</table>

Exposure Limits Supplemental

OSHA

- Silica, crystalline - quartz (14808607): Mineral Dusts: (30)/(%SiO₂ + 2) mg/m³ TWA, total dust; (250)/(%SiO₂ + 5) mppcf TWA, respirable fraction; (10)/(%SiO₂ + 2) mg/m³ TWA, respirable fraction)

Exposure controls

Engineering Measures/Controls

- Ensure that dust handling systems (such as exhaust ducts, dust collectors, vessels and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is not leakage from the equipment). Local exhaust ventilation.

Personal Protective Equipment

- 

Pictograms

- 

Respiratory

- Follow the OSHA respirator regulations found in 29 CFR 1910.134. Use a NIOSH/MSHA approved respirator if nuisance dust exposure limits are exceeded or symptoms are experienced.

Eye/Face

- Wear safety glasses.

Hands

- Wear appropriate gloves.

Skin/Body

- If prolonged exposure is anticipated, it is recommended for handlers to wear appropriate clothing to prevent skin contact.

General Industrial Hygiene Considerations

- Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Environmental Exposure Controls

- Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways.

Section 10: Stability and Reactivity

Reactivity
- This material is friable and can create small dust particles during any handling, processing, and transfer operations. This material can form explosive dust/air suspensions that are ignitable under some conditions.

Chemical stability
- Stable under normal temperatures and pressures.

Possibility of hazardous reactions
- Hazardous polymerization will not occur. May form combustible dust concentrations in the air.

Conditions to avoid
- Heat, sparks, open flame, other ignition sources, and oxidizing conditions. Strong oxidizers.

Incompatible materials
- Heat, strong acids, strong bases and oxidizing agents.

Hazardous decomposition products
- Carbon monoxide and carbon dioxide.

Section 11 - Toxicological Information

Information on toxicological effects

| CAS |  |
**Zoecon Altosid Pellets**

**Acute Toxicity**: Ingestion/ORAL-Rat LD50 • >5100 mg/kg; Skin-Rabbit LD50 • >2100 mg/kg; **Irritation**: Eye-Rabbit • Mild irritation; Skin-Rabbit • Essentially nonirritating

### Potential Health Effects

#### Inhalation

- **Acute (Immediate)**: Under normal conditions of use, no health effects are expected.
- **Chronic (Delayed)**: Exposure to respirable crystalline silica is not expected during normal use of this product. However, prolonged overexposure to respirable crystalline silica may cause lung disease (silicosis).

#### Skin

- **Acute (Immediate)**: Under normal conditions of use, no health effects are expected.
- **Chronic (Delayed)**: No data available.

#### Eye

- **Acute (Immediate)**: Causes eye irritation.
- **Chronic (Delayed)**: No data available

#### Ingestion

- **Acute (Immediate)**: Under normal conditions of use, no health effects are expected.
- **Chronic (Delayed)**: No data available

#### Other

- **Chronic (Delayed)**: No data available.

#### Carcinogenic Effects

- Exposure to respirable crystalline silica dust from the finished product is not expected to occur due to the manner in which the constituents are bound, thus the finished product is not considered carcinogenic under conditions of normal use.

**Section 15 Regulatory Information**

**Safety, health and environmental regulations/legislation specific for the substance or mixture**

**SARA Hazard Classifications**
- Acute

**FIFRA – Pesticide Labeling**
This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal
pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

CAUTION

Hazard Statements- **KEEP OUT OF REACH OF CHILDREN**

Precautionary Statements-

**Hazards to Humans and Domestic Animals**

**CAUTION** Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

**First Aid**

- Call a poison control center or doctor for treatment advice. If in eyes
- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If on skin or clothing
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.

**Environmental Hazards**

Do not contaminate water when disposing of risate or equipment wash waters.
