INSECTICIDE

FOR USE ONLY BY FEDERAL, STATE, TRIBAL, LOCAL GOVERNMENT OFFICIALS RESPONSIBLE FOR PUBLIC HEALTH OR PUBLIC SAFETY, OR BY PERSONS UNDER THEIR SUPERVISION, WHO ARE CRYING OR INSTRUCTED TO USE PERMANONE RTU 275 GALLON BULK.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION
Permanone RTU is toxic to certain fish, birds, bees and other invertibrates. Permanone RTU is toxic to honey bees, but is not toxic to honey bee natural enemies. Use of Permanone RTU may cause property damage. Always follow label instructions when using Permanone RTU.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Select and use protective gear appropriate for the intended application. Personal protective equipment (PPE) below is recommended when handling Permanone RTU.

SEASONAL USE
Spring: Apply in late March or early April, before the insect season begins and when conditions favor an inversion of temperatures in the area treated. Treat when mosquitos are most active and meteorological conditions are conducive to keeping the fog in the air column close to the ground.

SUMMER USE
Apply during the cooler hours of the night or early morning is recommended. Do not apply over bodies of water (lakes, rivers, permanent stream, natural ponds, commercial fish ponds, swamps, marshes, or estuaries), except when necessary to target areas were adult mosquitoes are located. Treat when mosquitoes are most active and weather conditions are conducive to keeping the fog in the air column close to the ground.

WINTER USE
Applications are made to prevent or control a threat to public health determined by a local health authority or to control mosquito populations, or if specifically approved by the state or tribe during a natural disaster recovery effort. Applications should be timed to provide the maximum possible interval between treatment and the next period of bee activity.

APPLICATION TO AGRICULTURAL CROPS

Non-refillable container.

Refill this container with pesticide only. Do not reuse this container for any

NOT FOR USE IN OUTDOOR RESIDENTIAL MISTING SYSTEMS.

Permanone RTU contains small enough droplets that it may be injurious to honey bees. Other bees may also be adversely affected.

IMPORTANT: READ BEFORE USE

Read the entire label and follow all directions before using this product. If terms are not acceptable, return the unopened product container at once. In some cases, an additional holding period may be required by the vendor of the product.

INSTRUCTIONS: For use on or about the property of others, or if applicable to others in a community or neighborhood. Bayer CropScience does not intend to use this product for all other commercial uses.

USE OF AGRICULTURAL CHEMICALS

To comply with the regulations of the United States Environmental Protection Agency, this label was prepared in accordance with Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) guidelines. The designation of “stabilized Commercially Available” or “Recommended Commercially Available” applies only to those uses approved by the Environmental Protection Agency (EPA). The registration of this product for the intended use does not indicate that the EPA has made specific approval or endorsement of this product.

STORAGE AND DISPOSAL

Do not store near or with food, feed, or articles made from these materials.

Precautionary statements for storage and disposal:

Poisonous to livestock. Avoid contact with livestock. Do not store near or with food, feed, or articles made from these materials. Keep out of reach of children.

Disposal of the container:

Do not recondition or use upperiod after application. This product is highly toxic to honey bees. Use care in applying this product to prevent possible honey bee exposure. Avoid applying to crops for which registration has not been granted. See label directions for details.

Do not dispose of empty container or product in household trash. Do not contaminate bodies of water or ground with material containing this product.

Disposal of the container:

Follow all state and federal regulations. Do not apply in a manner that will contaminate non-targeted sites.

STORAGE:

Store in a dry, cool place, protected from moisture and direct sunlight. Store in a well-ventilated area away from food and feed. Do not store near heat, open flames or other sources of ignition. Do not contaminate water supplies.

USE ORlando the label and follow all directions before using this product. If terms are not acceptable, return the unopened product container at once. In some cases, an additional holding period may be required by the vendor of the product.
